

Ovulation Induction/IUI Treatment costs January 2025

At Coastal IVF all cycles are provided at a standard cycle fee without add-on costs.

When a cycle is planned, you will receive a written quote specific for your care- this lists all costs in advance and the quotation outlines the payment schedule before you commit to treatment.

The table below shows the fees, expected Medicare rebates, and the estimated final out-of-pocket costs for an IUI treatment cycle

Ovulation Induction/IUI Treatment cycle	Expected Rebates	Expected final out of pocket costs
1st Cycle - \$1500.00	\$602.50	\$897.50
2nd Cycle - \$1400.00	\$602.50	\$797.50
3rd Cycle - \$1200.00	\$602.50	\$597.50

(Please note: If your cycle starts but is later cancelled, you won't be charged the full fee. Instead, a \$200 fee will cover the planning, management, visits, and scans from the cancelled cycle).

Non-standard Procedure costs- required in certain circumstances only

- Sperm Analysis + HBA Testing: (outside of an ART cycle) - \$200.00
- Sperm Cryopreservation (Includes storage for short term) \$300.00 – Subsequent samples \$150.00.
- Annual storage fee (semen) \$450.00 per annum. The storage payments are managed by Embryo Options on behalf of Coastal IVF. You will receive an email invitation from Embryo Options approximately 2 months after the initial freeze date regarding your long term storage options and associated costs.
